MERTHYR TYDFIL
County Borough Council

Thank you!!

Merthyr residents are 'Keeping up with the Joneses' in regards to recycling as much of their waste as possible in the weekly kerbside recycling scheme.

In September 2019, Merthyr Tydfil Council sent a letter to all homes in Merthyr Tydfil advising residents not to place items which could be recycled at the kerbside into your wheeled bin or you could have to pay a fixed penalty of £150 or appear in court. The great news is that most residents now recycle all they can and since the project started, only a small number of residents have been taken to court for placing recyclables in their non-recyclable waste bin across the County Borough.

The project will continue indefinitely and we hope this will help Merthyr Tydfil County Borough Council reach Welsh Governments strict target of becoming a zero waste town by 2050 and this will prevent the Council from being handed down fines in a difficult financial climate.

This means more money will be available to spend on services for our community.

To order free recycling bags and boxes, please visit
