Scrutiny Committees
1. Governance, Performance, Business Change and Corporate Services
2. Neighbourhood Services and Public Protection
3. Regeneration, Planning & Countryside
4. Learning and LAESCYP (Local Authority Education Services for Children and Young People)
5. Social Services
The Council has five Scrutiny committees, and each sets its own work programme to review policies, decisions and services of the Council and other organisations operating in the County Borough to ensure they meet the needs of local communities. The five Scrutiny Committees have agreed their Work Programmes and will be considering the items and issues as shown in this document at their meetings over the coming twelve months or so. Some key principles Councillors considered when they prepared the work programmes include: topics should add value and support corporate priorities; where appropriate involve partners, stakeholders and the public; allow some flexibility to enable topics to be included as they arise; seek improvement in service provision; and be achievable within available resources. There are many different ways you may wish to get involved in the work of scrutiny, including: suggesting a topic for scrutiny; providing information and evidence to inform a particular piece of review work - either written or in person; or attending a meeting to listen to discussion. For more information about overview and scrutiny, contact the Scrutiny Team: email scrutiny@merthyr.gov.uk or telephone 01685 725454.

The role of the committee in whichever form it is applied should be as a 'critical friend' of the Community Safety agencies, providing it with constructive challenge at a strategic level rather than adversarial fault-finding at an operational level.

Work Programme Descriptors 2016/17

(The Work Programme is reviewed at each meeting and as such is subject to change)

To be confirmed in new Work Programme for 2016/17	Service Level Agreements		Pupil Outcomes	Scrutiny and review:- Suggested by the Chair. Following the 25 th January 2016 meeting, the committee still wants to monitor consultation with the unions re lunches and breakfast clubs, and also the educational inclusion and the feedback from the schools forum and the schools themselves; and the impact for the local authority and the schools.
To be confirmed	NEETS		Wider LAESCYP Services	NEETs going to scrutiny after the Destination Survey for 2015 is published, as the department would then be in a position to report on Merthyr's performance in comparison to the rest of Wales. The Department (Chris Hole) highlight the following themes to Scrutiny so that it is able to explore further as the coming year progresses, especially as there is a general awareness of the improvements seen in recent years to the overall NEETs figure with a continued decrease in young people identified as NEET which for 2015 is 1.6% as previously reported. Key messages/themes 1. The council currently has access to the Merthyr Tydfil pre-release data for 2015. The full report is due to be published in the spring of this year however no set date is currently available. When published this will enable the authority to benchmark its current performance against the rest of Wales. 2. However through local analysis of trend data for the past 3 years (2013 - 2015) a. An increasing number of young people are staying on in education, however significant increases have been seen in young people opting for school 6th forms outside of Merthyr Tydfil (excluding Greenfield) b. Whilst the number of young people classified as unable to take up a post 16 provision is small, Mental Health issues are identified as the prevailing factor (in 2015 70% of the current 10 unable to access provision)

(The Work Programme is reviewed at each meeting and as such is subject to change)

				c. After initial progress there has been a significant reduction in young people securing apprenticeships 3. A further theme not covered by the Destination survey but requiring exploration in the coming year is the retention of young people by sector (Work based Learning, Tertiary College etc.) once they have taken up a progression route after leaving school These suggested themes would give some clear priorities for future scrutiny meetings within what is a fairly wide partnership agenda.
To be confirmed	Surplus Places		Pupil Outcomes / Governance	Scrutiny and review:- Report of what impact this will have on schools in the future and how it will impact on funding allocation.
To be confirmed	Schools Budget Formula / Schools funding formula		Pupil Outcomes / Governance	Scrutiny and review:- This is an ongoing issue as far as this scrutiny committee is concerned which has not been addressed satisfactorily to date.
To be confirmed (agreed at 20th June 2016 meeting)				• Invite the LAESCYP Monitoring Group to a future meeting. • Arrange School visits for the Committee when required to those schools where scrutiny can make an impact. • Attendance training and impact of the SLA's. What are schools doing themselves? • Impact on SLA's. • Expectations and attainment of Looked after Children. • Impact of Capita One, e.g. now that it is imbedded is it capturing the right data that schools and the LEA needs, is it more effective? • Confirmation when GCSE Results are being included on the Forward Work Programme. September meeting? • Industrial Relations with the Education Department. • HR SLA's to be included in the Forward Work Programme for September. • LAC placed out of county do better than those in county. Why? Theresa is collating data so the Department can drill down. When data analysed it will come to scrutiny

TBC	Greenfield School		Pupil numbers	Greenfield School is reaching capacity. With secondary / primary schools if capacity reached they are able to transfer to other schools. This is not the case with Greenfield due the support provided there. The committee wishes to keep an eye on any capacity issues. (December 2016 meeting suggestion)
TBC	21 st Century Schools		School builds	At the Dec 2016 meeting the committee heard from the Head and Chair of Governors that the school had no or very little say about the school build / alterations, when it should have. Eg. No cloak room to hang up coats – children carrying coats class to class, colour of classrooms (pained white – dirty very quickly). Whilst they raised their concerns, they were not listened to. Lesson for furture / committee to keep an eye on.
